Role Information:

Job title : **Programme Manager**, reporting to Programme Director - Land
Type of Contract : Permanent
Remuneration : Commensurate with experience
Closing date for applications : 11th May 2018

Job Outline:

We have an excellent opportunity for a professional programme manager to further their career within an international technology oriented company. The successful candidate will manage a number of programmes, each programme being a new product for the Company. The products will be at the forefront of technology in the global market and will support primarily our Land Business Line with possible opportunities within the Avionic and Targeting Business areas.

The programme manager is responsible for multiple projects from order acknowledgement through to production readiness, ensuring that the projects achieve the agreed deliverables, on time and to cost. Reporting to the Programme Director, the programme managers work autonomously within the wider business areas.

The successful applicant will gain a thorough understanding of our business and our market such that they can ensure our product developments meets the current and future needs of our customers. Because the programme manager has a pivotal role at the centre of product development, the role is varied and challenging and international travel is required, depending on the specific programme needs.

This is an exciting opportunity for a programme manager to make a real contribution to the Company by ensuring the successful development of products that are "leading edge" and perform repeatedly & reliably in hostile environments.

Career development is a real possibility for candidates with the ability and aptitude to succeed.

Personal Specification:

Candidates will demonstrate drive and ambition, and a track record of achieving successful programme results. To perform this role it is essential you have exceptional influencing and relationship building expertise developed as a result of practised strong communication skills.

Success within a programme management role will require flexibility, to adapt with changing environments and to secure constructive working relationships at all levels of the business.

This opportunity requires you to be confident, responsive and have a meticulous attention to detail in order to ensure programme requirements are fully understood and met. A high standard of general education with the ability to have a technically credible dialog with the engineering and production teams is essential.

It is advantageous for candidates to have bid and programme management experience, and exposure to Prince II methodology, gained within an engineering or manufacturing process environment.

How to Apply:

Please ensure you complete a Qioptiq Limited Application for Employment Form in full. An application form can be downloaded from the careers section of the Qioptiq website: www.qioptiq.com/careers

You may also support the application form with a cover letter and/or a resume. Applications may be returned via email to Lucy.Morrell@UK.qioptiq.com , or by post to Lucy Morrell, Human Resources Department, Qioptiq Ltd., Glascoed Road, St Asaph, Denbighshire, LL17 0LL, UK. Application forms must be **received** by Qioptiq Limited by the specified vacancy closing date.
